

Osai GreenTech

**URBAN MINING
AUTOMATION FOR RECYCLING**

Recycling plants for electronic waste

HARD DISK DRIVES

Recovering **Rare Earths** from the **Permanent Magnets** contained in end-of-life hard disks.

Recovery of **precious metals** and critical raw materials, from **PCB to gold**.

BATTERIES

Automatic systems for dismantling battery packs and **treatment of individual cells**. **Second life** automatic sorting for **good cells**.

PHOTOVOLTAIC PANELS

Automatic systems for dismantling photovoltaic panels and **recovering of glass, aluminum and silver**. **Second life** automatic sorting for **good panels**.

Osai GreenTech: the future, today.

Osai GreenTech was born from thirty years of experience of **OSAI A.S. S.p.A. SB** with a precise aim: **to apply automation in the world of recycling, bringing efficiency, speed and sustainability.**

In GreenTech products the latest technologies and Industry 4.0 automation are used for the recycling. With Osai GreenTech automation becomes the vehicle for a new 'recycling era'.
