

### neocutuv

FLEX PCB and rigid PCB up to 0.6 mm  
 Laser depaneling 4-8 W  
 High accuracy cutting  
 No mechanical stress on components  
 SW compensation of the shape deformations

### neocutuv modula

FLEX PCB and rigid PCB up to 1.0 mm  
 Laser depaneling 4-8-12 W  
 Very High depaneling speed  
 Very High accuracy cutting  
 No mechanical stress on components  
 SW compensation of the shape deformations  
 PCBs Automatic handling and sorting

Laser depaneling, what else!
